

## STATE READY TO REST CASE

The Evidence Against Sherman Was Expected to be All in Today.

Mayor's Clerk, Over Objections of Defense, Tells of Sherman's Confession.

In the Sherman case, now on trial at Hamilton, O., the State is dealing heavy blows at the defense by introducing Sherman's alleged confession as testimony. The State is expected to complete the introduction of its testimony today. When court opened Wednesday morning, Ex-Policeman Daily, of Hamilton, and the city civil engineer were the first witnesses called. In the policeman's testimony nothing materially new was developed. The city engineer had made a plat of the Sherman premises, but the court held it as unnecessary evidence inasmuch as the jury had visited the house during the trial.

The Hamilton Mayor's clerk was the next witness called. He, amid vigorous objections on the part of the defense, told of Sherman's confession to the coroner at the hospital. The coroner then took the stand and testified to taking Sherman's statement at the hospital. Sherman's mind, he said, was clear and the evidence was given of his own free will.

Detective Peter Heterich testified as to the scenes at the Sherman home at the time he was called and to Sherman's confession at the hospital. In his opinion, he said, there had been a terrific struggle between Sherman and his wife.

The defense, in its cross examinations, has been trying to show that Mrs. Sherman was fighting her husband and he was attempting to defend himself.

Detective Andrew Graf, the next witness testified to having seen Sherman at the hospital after the murder and to having heard him say he wished he had gone through with it. He also saw a body at the morgue said to have been that of Mrs. Sherman.

Dr. Will C. Huston was the next witness. He testified to the scenes at the Sherman home upon his arrival. Sherman, he said, was lying on the floor with his head on his wife's lower limb. The physician seized the murderer by the throat in order to stop the gush of blood from a wound in his neck. He said he heard Sherman say, "I did it. You see what jealousy will do." Witness said Sherman was almost in a dying condition when he reached him. He further testified to Sherman's confession at the hospital. Witness said that he administered several hypodermic injections of strychnia to stimulate the heart action and was asked whether or not from the great loss of blood, the pain and suffering and as a result of the strychnia, Sherman was in a condition to make any statement that could reliably be introduced as evidence for or against him. Witness said that to a certain degree probably not. His injuries were so severe that it took careful surgical attention to save his life. His mental faculties were probably to a certain degree impaired. Outside of the throat wounds, five stab wounds over the heart, a bruised right hand and a small scalp wound there were no other injuries. The defense is attempting to destroy the testimony concerning Sherman's confession of proving that he was not in proper mental condition to make a reliable statement.

Policemen were placed on the stand and testified to the removal of Sherman to the hospital.

Officer J. W. Daily, who was detailed to watch Sherman at the hospital and to prevent any attempt at suicide said that one day while Sherman was eating his dinner—a bowl of soup—the prisoner in reply to a question as to how it tasted said, "I would like to have a bowl of barley soup like Mamie used to make. She made the best barley soup I ever ate. She was the best cook and housekeeper I ever saw." Witness asked Sherman what his wife said when he first struck

her. Sherman answered that all she said was, "Oh! don't do that." Sherman said he didn't know what made him do it, but when he got started he couldn't stop.

On cross examination the defense tried to show that the witness had asked Sherman to tell him all about the murder, alleging that he said it would be better for Sherman, and that he had attempted to put the prisoner in fear of his life or offered him rewards for a statement. Witness said Sherman's attorney had ordered his client to keep his mouth shut.

A strong effort was made by the defense to break down this testimony and under a rigid cross examination the witness was unable to fix the date of his conversation with Sherman or the time when the attorney for the defense was at the hospital. The attorney came there he said with three other gentlemen, two of whom he understood were brothers and one a brother-in-law of Sherman. He could not positively identify Sherman's two brothers in court as two of the men. "Who taught you to listen to a conversation between an attorney and his client under those conditions?" asked the defense.

"Common sense," was the answer. "I was there under orders to see what was going on." Witness said Sherman showed him his right hand which was bruised and said he had struck his wife first with his first.

The trial, it is thought, will be concluded this week. Attorneys in Rushville believe that Sherman will escape with a life sentence, but many of the citizens think that he will be sent to the electric chair. The defense, it is understood, will put Sherman on the stand in his own defense sometime Friday.

## RAN INTO A TREE.

Yesterday evening as Hollie Mock and Anna Caldwell were on their way home from school, their horse became unmanageable, and started around a load of hay on Beuna Vista avenue. The frightened horse ran into a tree and damaged the buggy considerably, but fortunately neither of the girls were hurt.

## THE SPACE FOR TRACTION CARS

The House Committee Discusses the Bill Regarding Viaducts.

At an open meeting of the Indiana House committee on railroads, Monday night, Representative Bosson's bill to compel the railroads to leave a clearance of eighteen feet in viaducts over street car lines, was discussed. Charles L. Henry, representing the traction companies, and Roscoe O. Hawkins and Albert Baker, representing the railroads, spoke. The committee took no action on the bill, but announced that the hearing would be continued.

As originally drawn, members of the committee said, the bill would never be recommended for passage but at the meeting Monday night the two sides showed signs of coming to a compromise on the question and will alter the bill so as to be satisfactory to both. The bill provided that the expense of constructing the bridges over the car tracks should fall on the railroads, but the committee deemed this unfair. Only in cases where railroads cross interurban tracks was it thought necessary to have them leave a clearance of eighteen feet in their viaducts. In the cities, the cars are not so large nor do the interurban cars run so fast. The present law requires them to leave a clearance of fourteen feet.

This bill will have some effect on the Rushville and Shelbyville divisions of the Indianapolis and Cincinnati traction line, owing to the fact that the viaducts near Indianapolis where the traction line passes under the Big Four, C. & H. & D. and Belt railroads, are said to be too low to permit the Rushville cars to pass under the steam roads.

## LITTLE GIRLS WERE BURNED

Shocking Accident to Two Children at St. Omer, Decatur County.

Returning from Neighbors, Mother Finds One of Her Children a Charred Mass.

The town of St. Omer, Decatur county, a few miles south of Moscow, was startled Wednesday afternoon by the news of a horrible catastrophe in the family of E. L. Jones.

Two little girls, the elder, Effie, aged about 4 years, and little May aged about one year and ten months were locked by their mother alone in the house while she went across to the home of a neighbor, Mrs. William Holland, on an errand. She was gone about a half hour and on opening the door on her return found the room filled with a suffocating smoke.

In alarm, she called to her children and the little one came toddling to her with its face smoked and blackened, holding forth its little burned hands. Going further into the room she came upon the body of little Effie lying on the floor, charred and entirely dead.

Little May is old enough to toddle and run about the house, but cannot yet talk plainly enough and so the only tongue which could tell the exact details of the horrible story is still in death.

The room was heated by an old-fashioned open fireplace. The little ones were busy playing "keep house." They had imitated their mother and had put out a washing on the line near the fireplace to dry. Tiring of this they had cut paper dolls, for the scissors and their litter was about the floor.

In some manner little May's pinafore caught fire and with true motherly instinct Effie extinguished the blaze and saved her little sister's life at the cost of her own. One side of May's apron was burned, as was her hands. It is very probable that in putting out the fire on her sister's dress, Effie caught fire herself. The marks in the room indicate that she ran to the door, but it was locked and she could get no help. A stand cover has its fringe singed and everything indicates that there was a horrible struggle when the life of this four-year-old heroine went out.

The condition of the mother is indeed pitiable and her mind keeps reverting to the two scenes she saw, one as she stepped from the door and left her two little daughters at play, and the other which greeted her on her return.

No accident has happened in Decatur county in many a year that excites the sympathies as does this one.

## HORSE INJURED.

Tuesday afternoon, while Harry Culbertson, of Glenwood, was driving near his home, a gun discharged by a hunter, frightened his horse, a quiet family nag, causing it to run away. A barb wire fence in the way of the maddened animal, inflicted some fearful wounds, which required fifty stitches to close. Dr. A. H. Helvey, who attended the animal, believes it has a probable chance for recovery in spite of the seriousness of the cuts. Mr. Culbertson escaped without any injury.

## CAUGHT AT THE CROSSING

Grand Rapids, Mich., Feb. 2.—Six persons were injured, four probably fatally last night when a Grand Rapids & Indiana northbound passenger train crashed into a streetcar on the West Leonard street crossing. The streetcar was tossed fifty feet.

## PULLMAN SLEEPERS

Unusual Demand for Them Taken as Evidence of Prosperity.

What is generally conceded to be one of the best indications of prosperity is the demand for Pullman sleepers and cars the roads are experiencing at present. In adverse periods the travelling public foregoes the luxury of the sleeper and spends the nights either in the day coach or chair car, but in times of more prosperity the demand for sleeping cars increases.

There is an unusual Pullman business being experienced by the railroad at present. There has not been such a call for Pullman sections in many years and the railroad companies are having all they can do to take care of the business. There is also probably the greatest demand among theatrical companies for sleepers that there has ever been in the histories of some of the more prominent roads, a fact in itself which denotes unusual prosperity.

## PRINTED REPORTS

Of Codification Commission Are in the Hands of the County Auditor.

A limited number of copies of the reports of the Codification Commission have been printed by the State, in accordance with a Senate resolution, and they have been distributed to the counties for the benefit of attorneys who may wish to examine them. They have been forwarded to the auditors of the respective counties and attorneys may call and get them free, as long as the supply holds out. The reports awarded in this county are now in the hands of the auditor.

## TO BE RESUMED ON SATURDAY

I. & C. Cars Will Run Between Rushville and Morristown Again on That Day.

The Indianapolis and Cincinnati traction company will resume its two hour service between this city and Morristown Saturday morning.

The schedule, however, has been changed. The cars will leave Rushville on the even hours instead of the odd hours, and will leave Morristown on the odd hours instead of the even hours. The first car hereafter will leave Rushville at 6 a. m. each day and the first car will leave Morristown at 7 a. m.

The company now has two of the three cars, recently arrived, set up and wired and expected to try them out this afternoon.

## PLACED IN HANLY'S HANDS

Montpelier, Vt., Feb. 2.—Whether Mary Mabel Rogers, now occupying the death cell at the Windsor state prison, will die on the gallows tomorrow afternoon, as ordered by the court in which she was found guilty of murdering her husband, Marcus Rogers, or be granted a reprieve, while the supreme court is petitioned for a new trial, will be announced at Waterbury this afternoon by Governor Bell.

On a certain goose farm in the Middle West there is an incubator with a capacity for ten thousand eggs. These eggs are not, however, placed in the incubator at one time, but are so arranged that one section will hatch each day, being refilled as soon as the goslings are taken out. The geese are raised on this farm for their feathers alone, which are used in the upholstering business.

## HEAVY LOSS IS AVERTED

Quick Work by the Fire Department Prevents a Big Fire.

Small Blaze at the Elevator of T. H. Reed & Son This Morning.

Owing to the quick work of the fire department a bad fire and heavy loss was averted at the elevator of Theodore H. Reed & Son this morning.

In some manner unknown to anyone, a fire started in the engine room of the elevator about 11:15 this morning. But few were about the building at the time and by the time the fire was discovered, the building was full of smoke and no time was lost in turning in an alarm.

The alarm was sounded from box 36, corner of Second and Washington streets, and the hose wagon was on the scene in less than four minutes. The wagon made the run of seven blocks at break neck speed. The firemen used one stream of water and had the fire under control in about ten minutes.

No damage was done beyond the burning of part of the engine and boiler rooms and the corn-cob bin. The rooms adjoining these were somewhat charred and burned but were otherwise uninjured. The damage Mr. Reed states, is slight and is fully covered by insurance.

## Big Connersville Department Store in Trouble.

The large department store of Shera & McIntosh has passed into the hands of an "adjuster" or receiver. This was one of the largest department stores in Connersville, but the parties were not good advertisers, doing most of this work by circulars which were never read, but thrown over the streets and along the country roads.

The other large department stores in Connersville are both good advertisers and are doing a good business as they patronize the local papers largely. Is there any moral to be drawn from their experience by the merchants of this city?

## BAD ACCIDENT

A Sleighing Party Was Struck by a Train and Ten Were Killed.

Hornellsville, N. Y., Feb. 2.—A sleighing party from the Universalist church of Hornellsville was struck by a Pittsburg, Shawmut & Northern engine near Arkport last evening. Seven occupants of the sleigh were killed outright. The remaining six were so seriously injured that three of them died after being removed to the hospital. Of the other three two are in a serious condition. All of the dead and injured are matrons.

## CAUGHT IN WRECK.

Sions City, Ia., Feb. 2.—A passenger and freight train collided on the Rock Island railroad at Redman, Ia. The seriously injured are: Division Superintendent Brown, Division Engineer Julius Martin, Division Freight Agent Knapp, and a colored porter probably fatally. The injured were riding in the superintendent's car which was destroyed.

The "boanical clock" is the name of a flower that is grown on the Isthmus of Tehuantepec. It is said to change color three times a day, being white in the morning, red at noon and blue at night.

## HAD ENOUGH.

A Walcottville Man Wants to Leave Zion City But is Tied Up.

Two years ago William Heighn, of Walcottville, sold a prosperous business and moved with his family to Zion City, Ill., and joined the Dowieites. One of the first requirements of the apostle was that Heighn invest his all in the Zion City properties. He was also forced to pay large assessments to educate his children, and every available resource was taxed until the drain became so great that his income was insufficient. He then moved to Winthrop Harbor, five miles away, maintaining his religious connections with the Zionists. He has just lost two children, one dying within a month of the first from diphtheria. In a letter to his old home he paints a sad picture of his disappointment. He says that he is worse off than a poor man, and that his ability to return to Indiana would be the most cheerful outlook in his life.

## THE COLD WAVE

Seizes Rushville in Its Grasp and Forces People Indoors.

The cold wave promised by the weather man, struck this city last night and forced the mercury down, down, to a point about twenty-five degrees lower. At 4:30 a. m. today the thermometer at the Windsor registered 12 degrees below zero. At 7 o'clock it was eight degrees below, but at noon it had dropped back to zero. Owing to the cold few people are out. The gas, although flowing in some places, seems to be holding its own. No material change is promised for tonight and tomorrow.

## RUNAWAY BOY IS LOCATED.

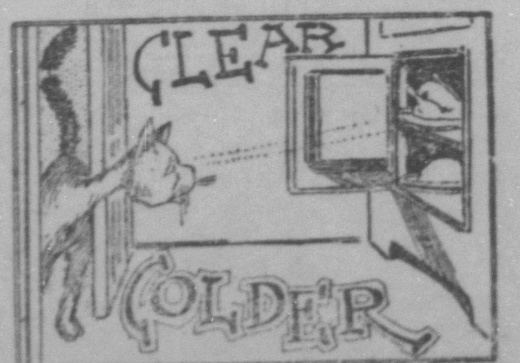

Paul Christopher, the boy for whom the police have been on the lookout not only in Rushville, but all over the State, and who has been missing from his home in Richmond since Monday, was located at Ludlow, Ky., Tuesday and returned to his home on Wednesday. No excuse was given by the boy for running away. He had no trouble at home or at school, and it is supposed that the sudden desire to see the world seized him and he left home, taking with him about \$25 which he had saved.

## WHAT THE PEOPLE SAY

Connersville Examiner: It is told of a Rushville girl that she described a kiss to her timid but tickled beau, thusly: "It seems like a moon-light trip on a banana down a stream of lemonade to an ice cream festival." He said "Gosh" and they clinched.

A new relation has been discovered between millinery and morality. The size of dressmakers' bills is said to be the most active cause of the decline of polygamy in Utah.

## Political Gossip.

### VICTORY FOR HANLY

The Governor's Recommendation Re-  
 flected in Action of the Senate.

Indianapolis, Feb. 2.—Just how far  
 party politics entered into the action  
 of the senate in the Nicholson law  
 amendment is not as yet fully devel-  
 oped. It doubtless cut considerable  
 figure, although the vote did not devel-  
 op party lines. Senator O'Brien, who  
 is chairman of the Democratic state  
 committee, and Senator Milburn, mi-  
 nority leader, voted against the Moore  
 amendment, but three Democratic  
 senators voted for it. On the vote on  
 the Moore bill regarding the signa-  
 tures attached to a remonstrance  
 there were seventeen Republicans and  
 eight Democrats. Some of the party  
 leaders on both sides were in favor of  
 standing pat and not making any  
 changes in the law, but when they  
 found there was a strong sentiment  
 favorable to the original proposition  
 to make an application stand against  
 all applicants, they helped secure the  
 compromise which was finally adopt-  
 ed. The result is a decided victory  
 for Governor Hanly, who worked for  
 the reform.

It now seems certain that no  
 changes in the Nicholson law, except  
 the senate amendment providing for  
 a remonstrance against a single ap-  
 plicant or the entire liquor business of  
 a ward or township, will be made.  
 This alone may be regarded as one of  
 the longest steps taken toward tem-  
 perance reform since the enactment of  
 the Nicholson law itself ten years ago.  
 The members of the house are already  
 indicating that they will fall in line  
 with the senate. The action there has  
 relieved the tension in the house,  
 where many members were uncertain  
 as to how they would vote. The sen-  
 ate in killing Senator Moore's bill to  
 make the filing of signatures to a re-  
 monstrance prima facie evidence of  
 their genuineness, indicated that it is  
 through with temperance legislation  
 for the present session, and the house  
 will probably fall in line.

The effort to increase the salary of  
 the state statistician from \$2,000 to  
 \$3,000 has been revived in the senate.  
 A bill for a similar purpose was killed  
 earlier in the session. The new bill  
 was introduced by Senator Lyons. It  
 has a provision that the office shall  
 collect labor and vital statistics in  
 addition to the present form it carries.  
 Inasmuch, however, as the state al-  
 ready has departments for collecting  
 vital and labor statistics, it is not like-  
 ly it will add expense by having these  
 statistics printed twice. A decided  
 disposition has been manifested this  
 session against increasing the salaries  
 of any of the state officials or their  
 deputies. But little effort has been  
 made to secure increases for county  
 or township officers, as the legislators  
 indicated at the outset an unwilling-  
 ness to change the present scale.

The house may be compelled after  
 all is said and done to vote on the  
 Guirli anti-railroad pass bill. As most  
 of the members are riding on passes  
 and charging the state mileage, it  
 would be very embarrassing indeed to  
 have the matter openly discussed. It  
 was the plan to kill the bill in the  
 committee to which it was referred,  
 but Representative Guirli seems to  
 have determined to have it out on  
 the floor of the house, where if an  
 aye and no vote is demanded every  
 member will have to say whether or  
 not he is in favor of accepting passes.  
 He has asked Chairman Clifford of  
 the railroad committee to take some  
 action regarding the measure.

A bill has been introduced in the  
 house to exempt from taxation all  
 farm lands of over five acres within  
 the corporate limits of cities and  
 towns. It is said that this bill is the  
 outgrowth of a number of exploded  
 boom towns where the corporate lim-  
 its were put "way out" to give the  
 impression of "rapid and phenomenal  
 growth." Failure to grow to the lim-  
 its and high city taxes have made  
 ownership of city farms a burden. It  
 is the purpose of the bill, it is under-  
 stood, to relieve this burden. When  
 the bill is reported it is probable that  
 the public will again have the story  
 of a number of booms that failed.

# A SPECIAL ORDER

It Is Thus That Guirli Bill  
 Will Come Up In  
 House.

## A RED HOT DISCUSSION

Is Expected to Follow the Taking  
 Up of This Important Temper-  
 ance Measure.

Thus Far 529 Bills Have Been Intro-  
 duced in Both Branches of  
 Legislature.

Indianapolis, Feb. 2.—When the  
 legislature convened today the clerk's  
 book showed that 295 bills had been  
 introduced in the house and 234 in  
 the senate, a total of 529. At this rate  
 the prediction of Lieutenant Governor  
 Miller that the total number of bills  
 for the session will not exceed 750 is  
 liable to come true.

The proceedings have been listless  
 since the red-hot debate in the senate  
 over the Nicholson law amendment,  
 which resulted in advancing the  
 Moore bill, as nothing half so im-  
 portant has arisen. However, there  
 will be an interesting session in the  
 house tomorrow, when the Guirli  
 temperance bill will be made a special  
 order of business. The senate has  
 passed Senator Lyons' bill providing  
 for the plugging of abandoned gas and  
 oil wells. This is more in the interest  
 of oil than gas, as the gas fields are  
 said to be practically exhausted.

Senator Roemer's bill providing  
 for the cultivation of waste lands in  
 northern Indiana by convicts at the  
 state prison was passed by the senate.  
 By request Senator Hendee intro-  
 duced a bill to repeal the law for-  
 bidding a wife from becoming security  
 for debt.

By a vote of 59 to 35 the house  
 killed the Keyes bill to provide for  
 the election of county school superin-  
 tendents by direct vote of the people.  
 Several of the strongest members of  
 the house advocated its passage, but  
 a majority seemed to feel the change  
 would drag the school system into  
 politics. A majority report was pre-  
 sented in favor of a bill to abolish the  
 public library commission. Bills to  
 increase the number of deputy state  
 factory inspectors and for the protec-  
 tion of young girls who work in fac-  
 tories were reported favorably in the  
 house.

New bills of general interest in the  
 house: To increase salaries of road  
 supervisors from \$1.50 to \$2 per diem;  
 to make township trustees supervisors  
 of gravel and free pike roads, instead  
 of county commissioners; providing  
 for tax levy by county commissioners  
 to support private free libraries; pro-  
 viding for a state board of examiners  
 for accountants; repealing a law  
 against Sunday baseball playing; to  
 create a railroad commission and au-  
 thorize it to act on written com-  
 plaints; to fill vacancies which may  
 occur in state board of health by ap-  
 pointment of governor and to require  
 secretary of board to be graduate of  
 reputable medical school; to allow  
 county treasurers a fee of 50 cents  
 on demand for delinquent taxes; to  
 provide for crematories for incineration  
 of human bodies in cities of more  
 than 50,000 population and requiring  
 cremation of persons dead of small-  
 pox, yellow fever or cholera; to dis-  
 solve incorporation of towns of 1,000  
 where taxes are too heavy to be met;  
 to exempt from taxation all farm  
 lands over five acres lying within  
 corporate limits of cities and towns.

New bills of general interest in the  
 senate: Providing that statistician's  
 office shall collect labor and vital sta-  
 tistics and increasing statistician's  
 salary from \$2,000 to \$3,000; to ex-  
 empt from taxation certificates of cap-  
 ital stock in a foreign corporation,  
 where the foreign corporation has paid  
 taxes upon all of its tangible property  
 and assets in another state; providing  
 that a physician may not report a  
 death by accident, or where a physi-  
 cian was not in attendance, without  
 making a report to the coroner.

## USED PAPERS FOR PYRE

Burns Herself to Death Rather Than  
 Go to Insane Hospital.

Danville, Ind., Feb. 2.—Mrs. Zadic  
 Jackson committed suicide by setting  
 fire to her clothing. For some years  
 she had been demented, and proceed-  
 ings were had for her removal to the  
 insane hospital. A neighbor, making  
 a call, spoke of her going away, to  
 which Mrs. Jackson objected. After  
 the departure of this neighbor, Mrs.  
 Jackson pinned a number of newspa-  
 pers to her dress, piled others on the  
 floor and applied a lighted match.  
 She was enveloped in flame, and had  
 to be carried out to prevent the house  
 from burning. She was frightfully  
 burned, but lived for several hours.  
 Mrs. Jackson was fifty years old, with  
 a husband and two adult children.

## Deadly Family Quarrel.

Columbus, Ind., Feb. 2.—As a result  
 of a family quarrel last night George  
 Williams followed his son Edward,  
 aged thirty, to a store, where the  
 quarrel was renewed. Edward struck  
 his father with a soldering iron, frac-  
 turing his skull, whereupon the father  
 stabbed his son three times near the  
 heart, inflicting fatal wounds.

# FAITH IS NOT SHAKEN

Notwithstanding "Bloody Sunday"  
 the Workmen Retain Their Faith  
 In "the Little Father."

Nicholas Gives Assurance of His In-  
 tention to Ameliorate Their  
 Sorry Condition.

St. Petersburg, Feb. 2.—Personal  
 assurances of his intention to ameliorate  
 the conditions and remove the  
 causes in so far as they are economic  
 which led to the recent strike, were  
 delivered by Emperor Nicholas late  
 yesterday afternoon to workmen  
 representing all the leading factories  
 of St. Petersburg, who at his invita-  
 tion journeyed to Tsarkoe Selo and  
 were received in audience in the hall  
 of the Alexander palace, where he has  
 his winter residence.

This interview, face to face with  
 their "little father," in whom their  
 faith has not been shaken by the  
 events of the bloody Sunday of Jan.  
 22, has had a far greater and more  
 reassuring effect than any number of  
 proclamations by ministers and gov-  
 ernor generals, and the workmen of  
 St. Petersburg are now generally in-  
 clined to accept the promises of Gov-  
 ernor General Trepoft and Finance  
 Minister Kekovsoff at their face value.  
 A gift by the imperial family of \$25-  
 000 to aid the families of the victims  
 of the conflict on Jan. 22 also has had  
 an excellent effect, and as the news  
 slowly permeates the laboring classes  
 of Russia it is expected that it will  
 make them content to wait for the  
 promised reforms.

Like a wave caused by the falling  
 of a stone, the strike movement, how-  
 ever, is spreading over the great sea  
 of Russian industrial life; and while  
 St. Petersburg and Moscow, where the  
 troubles began, are now placid, the  
 workmen of Poland and other prov-  
 inces are not yet calm, and the ripple  
 has reached to far-off Irkutsk and  
 other Siberian towns.

Emperor Nicholas adopted the tra-  
 ditional fatherly tone in his talk with  
 the workmen yesterday. He chided  
 them for allowing themselves to be  
 misled into engaging in a movement  
 imperiling the internal order of Rus-  
 sia and aiding the foreign foe, and for  
 attempting to demand by force what  
 he otherwise would be willing to do  
 voluntarily. The workmen received  
 the royal assurances of reform with  
 cheers, and after a lunch at the im-  
 perial table, returned to St. Peters-  
 burg in the best of humor to report  
 to their fellows, as enjoined, the  
 words of his majesty. No attempt  
 was made by them to present their  
 desires, which already are sufficiently  
 evident.

The action of the St. Petersburg  
 manufacturers in placing themselves  
 in the hands of the government in the  
 matter of the adjustment of the main  
 points of the dispute and to grant the  
 men pay for the time they have been  
 on strike, not as a matter of right,  
 but as a favor, and their contribution  
 in aid of the sufferers among the fam-  
 ilies of their workmen, are expected to  
 add to the prevailing good feeling.  
 The current gossip to the effect that  
 M. Bouligan, former governor of Mos-  
 cow, will succeed Prince Sviatopolk-  
 Mirsky in the ministry of the interior,  
 is another straw tending to confirm  
 the surmise that Grand Duke Sergius  
 is the dominant influence in the grand  
 ducal faction. The appointment of  
 General Trepoft to the governor gen-  
 eralship of St. Petersburg, who was  
 Sergius' nominee, narrowed the power  
 of the minister of the interior, and it  
 is believed precipitated Prince-Sviatopolk-  
 Mirsky's resignation; and that  
 those who are posted should pick an-  
 other Moscow man and a friend of  
 Grand Duke Sergius to receive this  
 portfolio indicates a growing appre-  
 ciation of the influence of the emper-  
 or's uncle.

### CLAIMS A MIRACLE

Remarkable Defense Set Up by Defendant in Perjury Trial.

Chicago, Feb. 2.—A miracle brought about by prayer was sworn to in court by Miss Inga Hanson, a former member of the Salvation Army, who is on trial here charged with perjury in connection with a personal damage suit brought by her against the Chicago City Railway company. Under oath she testified that the alleged miracle came from the lips of the young woman as the answer to a charge that her ailments had been conceived to further a \$50,000 conspiracy, had been adroitly simulated through five years of litigation, and had suddenly ceased. The scene of the alleged visitation was in Richmond, Va., and, according to the girl's claims, was produced by prayer with an itinerant Methodist missionary who visited her. ### MINCE PIE.

Butter your pie plate and place on them a covering of the crust which you have made, repeating the rule for the number of pies desired. Fill each with mince meat which has been prepared for some time, as it is always better flavored than if just mixed. Cover with one general crust or cut the crust in strips and twist as for a tart. Having done this, moisten a little and press the edges together. Bake about thirty minutes in a sufficiently hot oven.

The water main, a distance north of the crossing of the C. H. & D. and the traction line on Morgan street, sprung a leak last night and the water coming to the surface caused considerable annoyance to both roads on account of the ice formation on the tracks. Local "Haymakers" will be interested in an item in the Cambridge City Tribune which states that the Haymakers of that city have purchased an entire new outfit of paraphernalia and costumes at an expenditure of over \$100, and in due time will have an up-to-date hay loft, not surpassed in the State. They have several candidates elected and as soon as their new outfit arrives they will have a harvest to which all neighboring hay lofts will be invited.

### CHURCH NEWS

The young people of the Presbyterian church were royally entertained last night by William Helm. Quite a number were present.

The social given last night by the Pastor's Aid Society of the Christian church at the home of Dr. and Mrs. J. B. Kinsinger was largely attended. The affair proved to be one of the nicest social events of the season. Mrs. R. W. Conover recited. B. F. Miller and Miss Hazel Spurrier each sang a solo, and the rest of the time was spent in playing games. Refreshments, consisting of "ground hog" sandwiches, doughnuts and coffee were served.

### What is the Matter With Kansas.

There is nothing the matter with Kansas. A legislator of that State wants Kansas to have the honor of first enacting into law the ten-year marriage system proposed by the English novelist Meredith. Senator Smith has prepared a bill for that purpose, which is now before the legislature. It provides that all marriages hereafter celebrated in the State of Kansas shall be deemed and held to be civil contracts for a period of ten years, subject to laws relating to divorce and alimony.

There is one point which was overlooked by the framer of the proposed law, and by all who have discussed Mr. Meredith's suggestion. It is that all marriages ought to terminate at the same time, say at the beginning of every year ending with a cipher, just as every year divisible by four is a leap year. All marriages celebrated prior to that date might be called off on Jan. 1, 1910, those contracted thereafter in 1920, etc. The advantages of this amendment are obvious, because it would leave all married persons foot loose at the same time and give a wider range for choice. Suppose Mrs. A, who has a husband, would marry Mr. B, who is burdened with a wife, and the marriage terminals of the A and B families are five years apart. If the lady were divorced, some other man might pick her up prior to Mr. B's release from present engagements. When a man or woman must wait five years, the chance is as good as lost; whereas, if the contracts are coterminous the new arrangement can be entered into without dangerous delay.

Mrs. Mary Ellen Lease has studied Meredith's proposed system and pronounced it idiotic. That settles it. Senator Smith's bill will never become a law.

### AT THE ... CITY ... OPERA HOUSE

The powerfully and impressive melodrama, "Her Only Sin," presented by an exceptionally strong company of players, will be offered for the approval of the lovers of all that is clean and wholesome in melodrama on the stage at the city opera house on Thursday, February 9th. "Her Only Sin," has been firmly established as one of the most original and interesting of modern dramas. For genuineness, strength and brilliancy, "Her Only Sin," is a marvel of stage craft, done by a master hand in stage adroitness. "Her Only Sin" is one of the strongest plays ever shown on the American stage.

The biggest building stones ever used are found, not in Egypt, but at Baalbec, in Syria. They measure 60 feet long and 20 feet square.

We beg you to be one of the number to fill the church Monday night to hear the best concert ever given in Rushville. Think of it, "The Daughter of Jairus" and the "Festival Te Deum." Fill the house? Yes it will. You will see chairs in the aisles. See?

### THE DAUGHTER OF JAIRUS

Something About the Oratorio to be Sung at the Main Street Christian Church.

This beautiful musical composition will be sung at the Christian church Monday night, February, 6th, and we believe a short synopsis of this work should be read before it is heard.

This "Daughter of Jairus" was composed by John Stainer and he has made himself famous as a composer. No other composition, that we can call to mind, contains so much melody in proportion to the size of the work.

The opening chorus is a duet between the soprano and alto on one side and the tenor and bass on the other. The former assures the latter that "In that day shall the Lord of Hosts be for a crown of glory, etc." and the latter pray "O Lord, be gracious, etc." All through this long duet perfect assurance is sung by the ladies and it closes with the phrase, "Thou shalt weep no more."

Following this, one of the rulers of the Synagogue, Jairus, sees Jesus, he falls at his feet and tells Jesus that his little daughter lieth at the point of death. He beseeches the Saviour to come and lay his hands upon her that she may be healed. Jesus went with him and said "fear not, believe and she shall be made alive."

Following this is the beautiful tenor solo, "My Hope is in the Everlasting." The child is dead and the ladies chorus sings "The Wailing." This number is a very effective one. Next the male chorus sings, "In the Death of a Man There is no Remedy," but finally they agree to see if the words of Jesus be true. Jesus raises the child from the dead and follows now the great chorus, "Awake, Thou That Sleepest." The duet for soprano and tenor, "Love Divine," is a musical gem. This duet was sung in "The Holy City" last season, but is a part of "The Daughter of Jairus," and it alone is worth the price of admission. The closing chorus is full of praise to Him who left His throne on high, and closes with Hallelujah and amen in one grand chorus, "To Him be Everlasting Praise."

"The Daughter of Jairus" is being presented by the large church choirs and musical societies in the East, and never fails to bring forth volumes of applause. Rushville people, as was noticeable at the production of "The Holy City," are slow to applaud at an oratorio, thinking, perhaps, that it is rather unbecoming for a piece of that character but we are sure that "The Daughter of Jairus," when it is presented at the Christian church Monday night, will be greeted with the enthusiasm and applause it deserves.

The women don't know it but, there really isn't as much excitement going on all day down town as there is in taking a cake from the oven.

What a different world this would be if the rule could be reversed, and rich kin hunt for poor kin in order to help them.

The "Festival Te Deum" is the most popular one ever sung. Its melody is charming. It pleases the cultured of New York City and it will please and delight you if you will hear it Monday night at the Christian church.

### ANOTHER CHARGE

Senator Mitchell Called to Face an Additional Indictment.

Portland, Ore., Feb. 2.—The federal grand jury late yesterday indicted United States Senator John H. Mitchell on another charge of bribery, and also indicted State Senator George C. Brownell, one of the foremost Republican politicians and lawyers in this state, on charges of subornation of perjury.

The indictment against Mr. Mitchell alleges that while a senator from this state to the federal congress he accepted on seven different occasions sums of money aggregating \$4,200 from a timberland dealer named Frederick R. Krue for services rendered in, it is alleged, inducing Congressman Binger Hermann, then commissioner of the general land office at Washington, to expedite, make special and approve certain applications for public lands and recommend the issuing of patents to the lands.

The indictment against Senator Brownell charges that Mr. Brownell caused Fred Sievers and John Howland to swear falsely that certain field notes in connection with the survey of public lands in eastern Oregon were true.

### Reports Are Not Definite.

St. Petersburg, Feb. 2.—From the reports of the general staff it is not clear yet whether the fighting on the Hun river is ended. The Russians continue the bombardment of Sandapas and apparently a strong force of Russians is between Sandapas and Shaksep to check the Japanese, who seem to be trying to use their former turning movement across the Hun river. Nothing further has been heard of the Russian movement against the Japanese right.
